Other factors

Indicate here any other factors that you took into account when assessing the evidence base (for example, issues that might cause the group to downgrade or upgrade the recommendation)

Papers 19 – 23, with conceptual support from 15 possibly out that even a median required best not always reached.

EVIDENCE STATEMENT

Please summarise the development group’s synthesis of the evidence relating to the key question, taking all the above factors into account. Please indicate any dissenting opinions.

Provides a challenge at community level to provide the care, differing—apples may be important.

RECOMMENDATION

What recommendation(s) does the guideline development group draw from this evidence?

Clinicians may assist in improving survival outcomes in curative resection for colorectal cancer by B. Expediting access to optimal clinical care.

The overall grade is the summation of the grades for individual components. A recommendation cannot be graded A or B unless the volume and consistency of evidence are both either A or B.

GRADE OF RECOMMENDATION

B
